

INTERNET AND MULTIMEDIA DEVICES POLICY

Scriptural Context

*“Teach a child how they should live, and they will remember it all their life.”
Proverbs 22:6*

Rationale:

St Patrick’s School is a school that encourages the use of technology to enhance learning experiences. Children are exposed to online communication tools and the internet in all facets of life. They have the right to expect secure access to these services as part of their learning experiences. Students and staff need to take responsibility when provided access to computers, multimedia devices and the internet via a local area network (LAN). This policy applies to school-owned and student-owned devices (as per the Digital Devices Acceptable Use Policy & User Agreements (incorporating BYODD)).

The internet provides an opportunity to enhance students’ learning experiences by providing access to vast amounts of information across the globe. The use of computers, multimedia devices and the internet is intended for research and learning and communication between staff and students. In using and managing internet and network services, students and staff are expected to conduct their activities in a manner that supports and advances the mission of Catholic schooling in the Diocese.

“The internet offers extensive knowledge, but it does not teach values: and when values are disregarded, our very humanity is demeaned...” Pope John Paul 11

Guidelines	Indicators
<p><u>A. Responsibilities</u> (i) Students All students are required to use the internet, network and multimedia services for curriculum purposes, independent research and the transfer of information relevant to the goals and values of the school, at all times aiming for improved student outcomes.</p>	<ul style="list-style-type: none"> • Use computers, internet and multimedia devices for educational purposes only. • Must take care with, and show respect for the equipment that they are using. • Students will make no attempt to access inappropriate websites and images that have no educational relevance or store inappropriate content on student-owned devices. • Notify supervising teacher immediately if any message, image or site is illegal, inappropriate, dangerous, makes them feel uncomfortable or offended. • Do not download files from the internet including applications, music, videos or games without permission from the supervising teacher. • Be aware that all internet usage is monitored and there is a set download limit. • Be aware that purposeful inappropriate usage will lead to disciplinary measures as per Behaviour Management Policy. • Students will not change their school passwords. • Students in Years 3 to 6 will sign a Digital Devices Student Responsible User Agreement at the beginning of each year. (See Appendix A)

<p>(ii) Staff To ensure that all students are aware of the responsibilities and obligations of computer, multimedia and internet usage. Investigate and act on student breaches of this policy. Where possible do not create learning experiences which can lead to inappropriate content being seen on the internet. Ensure that school-owned devices are functioning effectively and that any problems are reported to the Technology Officer to be fixed.</p>	<ul style="list-style-type: none"> • Class discussions about internet, computer and multimedia usage. • Correctly model how to use all equipment. • Use computers, internet and multimedia services for professional purposes only. Use the internet and email to send and receive personal messages, provided that such use is kept to a minimum and does not interfere with the performance of your work duties. • Be aware that internet usage is monitored by Diocese and that there a set download limit for students. • As much as possible peruse websites before use. Create links in Google Classroom to minimise “surfing” by the students and minimise download costs. • If there is a technical issue with any school-owned device, use the Help Desk from the CSO Website to report the problem, so that proper assistance can be given.
<p><u>B. Privacy and Confidentiality</u> At all times respect the rights of others and your own privacy when using the internet, emails and multimedia devices.</p>	<ul style="list-style-type: none"> • Do not share passwords. Keep your own private. • It is unacceptable for students to gain or attempt to gain another person’s password or personal information. • If teachers have copies of their students’ passwords and usernames they are to take reasonable steps to ensure privacy of information. • Only use photographs and videos with parental permission (check Media Permission Sheet). • Any personal information that the school or teachers have, whether about students, colleagues, suppliers or parents, it is required that all information is kept confidential. • To ensure privacy, it is encouraged that all users log out when not using the computer/ or device. • Students are not permitted to take photos or videos of others without their permission.
<p><u>(C) Copyright</u> All users are expected to respect and adhere to the laws concerning copyright and other people’s ideas.</p>	<ul style="list-style-type: none"> • Obtain permission before copying from another user. • Copying files, pictures and information from another author may constitute plagiarism or theft. • If using anything (pictures or information) from the internet correctly reference the source and acknowledge ownership. • All materials created using school resources is the property of the Diocese of Lismore.

<p><u>(E) Virus Control</u> All users of the school network are to reduce the risk of viruses entering the system.</p>	<ul style="list-style-type: none"> • Do not download any software, music, videos or files off the internet without permission and virus scan. • If downloading any of the above, use the school anti-virus software to check before opening. • Avoid bringing files from outside sources, such as home without performing an anti-virus check.
<p><u>(F) Consequences</u> All students must be aware that inappropriate usage of the internet, computers or any other multimedia device can lead to disciplinary action at the discretion of the teacher or in accordance with the Behaviour Management Policy.</p>	<p>Consequences may include:</p> <ul style="list-style-type: none"> • Only work under direct teacher supervision. • Loss of access privileges for a set period. • A meeting with the Principal or Assistant Principal (which may also involve parents or letter home). • Actions in accordance with the Behaviour Management Policy.

Digital Devices

Student Responsible Use Agreement

Responsibilities of Students

I agree to and accept that the following rules must be followed when using digital devices, the internet, applications and email at St Patrick's Primary School Macksville.

As a responsible student and mobile learning device user I will:

- **follow teacher instructions related to my device use**
- acknowledge that my mobile device is primarily a learning tool and not for entertainment
- treat all digital devices and technologies with respect and care at all times
- use my device for my own personal use and not make it available to other individuals
- not share my username or password with other students
- store my device in a safe and secure manner when not in use - device usage is only permitted in class time
- keep food and beverages away from my device at all times
- keep applications requested by the school on my home page, ensure they are kept up to date and download when instructed by Airwatch app.
- keep my device fully charged for daily use.
- refrain from any attempt to harm or destroy the equipment or data of others
- use digital technologies as a responsible digital citizen
- abide by conventions of online etiquette and be respectful of others
- protect my own and other people's personal details including log ins, passwords, last name, family details, address, telephone number and email address
- ensure that all content played, shared or viewed is age appropriate
- seek authorisation when changing device settings, deleting or uploading applications onto devices
- use the school network and school owned devices to store or share any files that are only of an educational nature
- access only areas of the computer or network that are related to my learning as specified by my teacher
- be ethical and responsible when accessing sites and inform my teacher if I discover material that is inappropriate
- use the internet and all applications appropriately as a responsible digital citizen
- comment on my own and other's work in a respectful and constructive manner
- seek permission from the owners of materials before using or uploading images
- not use digital technologies to harass, humiliate or bully another student or teacher
- abide by conventions of etiquette and be respectful of other technology users
- allow my parents to be aware of and monitor the use of my mobile device and the internet at home as this is not the responsibility of the school

Student Agreement

I acknowledge that I have read, understood and agree to abide by the responsibilities contained within this *Policy and the Responsible Use Agreement*. I understand that if I breach either it may result in disciplinary action. This Agreement will be reviewed on an annual basis by St Patrick's Primary School.

Digital Devices – Parent Responsible Use Agreement

Responsibilities of Parents

I agree to and accept that the following rules must be followed when using digital devices, the internet, applications and email at St Patrick's Primary School Macksville.

As a responsible parent I will:

- thoroughly read and discuss this *Policy and Agreement* with my child at an age appropriate level
- work with the school to assist my child to abide by their responsibilities in this policy and agreement
- work collaboratively with the school to promote a safe learning environment for students
- take responsibility for my child's access and online activities at home
- model appropriate use of technology
- notify the school promptly about Cyber safety issues that arise
- supervise and discuss internet content and time spent using technology to help children grow into ethical, safe and responsible digital citizens
- report serious out-of-school hours Cyberbullying to the Police or Internet Service Provider and as relevant to the school
- follow due process and use relevant procedures when bringing disputes, complaints and grievances to the notice of a teacher and/or Principal or school
- acknowledge and understand that an iPad or any other digital device is fragile and that it must be cared for at all times
- assist my child when installing and updating applications requested by the school
- agree where the school assesses damage to my child's owned device to have been caused by my child to meet the cost of any repairs and repair the device promptly so as to not disadvantage my child's learning.
- agree where the school assesses damage to another student's or school owned device to have been caused by my child through a breach of the *Student Responsible User Agreement* to meet the cost of any repairs. I acknowledge that the school will advise me in writing of any such repair costs or assessment of damage.
- Will not use messaging app while my child is at school

Parental Consent

I acknowledge that I have read, understood and will abide by the conditions and regulations contained within this *Policy and the Responsible Use Agreement for Parents and the Responsible Use Agreement for Students*. I also acknowledge that I have discussed this policy and the agreements with my child.

As Parent/s or Caregiver/s, I/we give permission for my/our child _____ to:

- Bring their own designated device to St Patrick's school for use in the classroom for educational purposes
- Access the internet for information relating to class work
- Publish work created by students, credited by students' first name only
- Communicate and collaborate with others within the school, and organisations outside of the school, with approval from teachers
- Use of a variety of websites, including registration and the use of personal usernames and passwords, for educational purposes including 'cloud' based technologies such as Google Drive and other Google Apps for Education

Please note that the students will access the Internet using a username and password. Please indicate your permission by signing the permission and agreement covenant below. Parental agreement and student understanding ensure that all students are able to make optimum use of the technology and actively participate in all learning opportunities. I acknowledge that the school will not be held liable for any damage to, or theft of, the device as a result of this decision.
