iCloud Backup for iPad

1. Connect your device to a Wi-Fi network.
2. Tap Settings, then scroll down and tap iCloud.

3. Scroll down, tap Backup, and make sure that iCloud Backup is turned on.

4. Tap Back Up Now. Stay connected to your Wi-Fi network until the process completes.
5. Make sure that the backup finished: Tap Settings > iCloud > Storage > Manage Storage, then select your device. The backup should appear in the details with the time and backup size.

**Automatically back up with iCloud Backup**

To let iCloud automatically back up your device each day, here’s what you need to do:

- Make sure that iCloud Backup is turned on in Settings > iCloud > Backup.
- Connect your device to a power source.
- Connect your device to a Wi-Fi network.
- Make sure that your device’s screen is locked.
- Check that you have [enough available space in iCloud](https://support.apple.com/en-au/HT203977) for the backup.
